

Adventures in Language® : Level 1 Student Performance Documentation Form

Instructions for Determining and Recording Mastery:

Mastery can be recorded either as the number of points earned or as a percentage mark. Criterion for mastery is 80%. Scores that are below mastery should be highlighted and areas of weakness remediated with targeted instruction.

Highlighting across a row indicates an individual student is not at mastery.

If more than one-third of the class is not at mastery on a single lesson (highlighting vertically in a column), the whole class should receive targeted instruction on the areas of weakness. Students who were not at mastery should redo the lesson to achieve mastery or a higher mark. Students who achieved mastery benefit from having the opportunity to improve their score.

Additional space has been provided on the Student Performance Documentation Form for students who do not achieve mastery to redo the lesson or to improve their mark.

Writing for Fluency scores are only recorded for those lessons that require a final copy of the piece of writing.

Instructions for Recording Scores Using Points:

Each lesson gives the number of points a student must earn to achieve mastery (Score Indicating Mastery Level). If a student's score is below the number of points, he or she has not achieved mastery.

Instructions for Calculating Percentage Mark:

Give each student a score for each lesson's work based on the point distribution guidelines. To calculate the percentage score: Divide the Total Number of Points Earned by the Lesson Total, then multiply by 100.

Example: Student scored 61 points out of a possible 65 points.
 $61 \div 65 = .94 \times 100 = 94\%$

Recording Data from Out of Program Tests (Optional Component):

Data from Out of Program Tests should be recorded on the **Out of Program Tests Reporting Sheets** that can be found near the end of the Out of Program Tests blackline master packet.

Data from Writing for Fluency based on **Writing for Fluency Scoring Rubrics** should be recorded on the **Evaluating Writing Reporting Sheets** that can also be found near the end of the Out of Program Tests blackline master packet.
